

TRACEABILITY PRODUCTS

POWERSCAN 9600 HANDHELDS

Bullet Proof Your Traceability Targets
The 9600 is the range-topping handheld industrial scanner in the best-selling PowerScan series from Datalogic, helping you smash your traceability targets. Achieving full traceability in manufacturing, intralogistics and retail environments is the number one priority faced by businesses today when faced with fulfilling consumer delivery demands. You need a tough device for handling the toughest jobs.

CODISCAN WEARABLES

CODiScan stands as the ultimate wearable scanner tailored for the Transportation & Logistics, Retail, and Manufacturing industries. This revolutionary Bluetooth® wearable scanner series is crafted to redefine productivity, tipping the scales at just 44 g / 1.5 oz. Its lightweight design facilitates effortless positioning on various bodily locations, including the hand, neck, belt, or pocket. Regardless of its placement, users enjoy unrestricted use of both hands, significantly enhancing productivity when it matters most.

MATRIX FIXED SCANNERS

Stationary industrial scanning solutions are specifically designed for applications that are not permanently monitored by operators and are used in a wide variety of industries. Stationary position scanners offer various options for how output data can be used and interface with your business PCs, servers, or ERP, in virtually any fieldbus protocol, providing real value on how your organization uses this business intelligence data. With Datalogic's versatile portfolio of stationary industrial scanners, customers can get a solution for a full array of barcode reading needs.
