

See farther. Protect more.
The world's first 10 m Safety Laser Scanner

UNMATCHED AREA COVERAGE

Protect up to 240 m^2 with a 10 m safety range and 275° scanning angle. It covers large areas with fewer devices and simplify your system design.

PRECISION MEETS PERFORMANCE

Achieve superior detection with ultra-fine 0.059° angular resolution and fast response time—perfect for high-efficiency AGVs and AMRs.

SMARTER, EASIER CONFIGURATION

Unlock intuitive setup and real-time monitoring with the new DL Sentinel GUI, enhanced by Optimatune technology and tailored to your exact application needs.

FLEXIBLE PORTFOLIO

Choose from 6 models with Master-Remote options and encoder support. Ready for upcoming Profinet/ Profisafe integration.

DETROIT MICHIGAN 248-478-1182
GRAND RAPIDS MICHIGAN 248-478-1182
CLEVELAND OHIO 248-478-1182
MEMPHIS TENNESSEE 248-478-1182
JACKSONVILLE FLORIDA 813-774-5935
MIAMI FLORIDA 813-774-5935
ORLANDO FLORIDA 813-774-5935
TAMPA FLORIDA 813-774-5935

SLS10

HIGHEST SAFETY RANGE (10 m x 275°)

Exceptional safety coverage up to 10 m and 275°, enabling the protection of very large areas with a reduced number of devices.

FASTEST RESPONSE TIME (UP TO 84 ms)

The faster response time up to 84 ms enables installation closer to the hazardous area.

IMPROVED USER INFERFACE

A redesigned User Interface simplifies operation with a common Master/Remote view and integrated Optimatune tools.
